

WELCOME ABOARD THE SWEDISH SHIP GÖTHEBORG

THE PROMENADE @ VIVOCITY 30/12/2006 – 14/01/2007

A NEW SHIP - TRADITIONAL STYLE

The Swedish Ship Götheborg has been built according to traditional methods and with the same raw materials that were used in the 18th century. 1000 oak logs and 50 kilometres of pine have been turned into a 58.5 metre long and 11 metre wide East Indiaman ship. The nails, blocks, sails, cordage and ropes have all been made by hand. It took 100 000 man hours just to build the rig. No drawings from the past were found, so the main keys to success had to be innovation, skill and persistent research. Modern equipment for safety, navigation, cooking, heating, and hygiene has been carefully disguised onboard to preserve the traditional feel.

A HISTORICAL VOYAGE FROM SWEDEN TO CHINA AND BACK
WWW.SOIC.SE

GREAT ADVENTURE, HISTORICAL JOURNEY

On the 2nd of October 2005 the Swedish Ship Götheborg left Sweden to set sails for China. After stops in Vigo, Cádiz, Recife, Cape Town, Port Elizabeth, Fremantle, Jakarta, Guangzhou, Shanghai and Hongkong the ship now comes to Singapore on its way back to Sweden. The ship should be back in Göteborg in June 2007 depending on weather and winds. The whole journey is approximately 37000 nautical miles long.

Don't miss the opportunity to visit the ship to study and feel the historical atmosphere. You are allowed on weather deck and also to go down to gun deck.

SHIP OPEN FOR THE PUBLIC:

- December 31: 10 am – 6 pm
- January 1: 12 am – 9 pm
- January 2, 3, 4, 6: 10 am – 9 pm
- January 5: 10 am – 5 pm
